Journal of Developmental Physiology

VOLUME 5, 1983

EDITED BY
Colin T. Jones

OXFORD UNIVERSITY PRESS

Journal of Developmental Physiology, 1983, 5, iii–v

Contents

Number 1, February 1983

Fetal growth and placental diffusing capacity in guinea pigs following long-term maternal exercise 1
P. S. Nelson, R. D. Gilbert & L. D. Longo

Placental exchange area in guinea pigs following long-term maternal exercise: a stereological analysis 11
A. Dwight Smith, R. D. Gilbert & L. D. Longo

Left ventricular systolic time intervals and plasma noradrenaline concentrations during acute hypovolaemia in newborn infants 23
B. P. W. Lundell & H. Lagercrantz

Regulation of glycolytic flux in the heart of the fetal guinea pig 31
T. P. Rolph & C. T. Jones

Effects of intravenous glycine infusion on plasma glucagon, insulin and metabolite concentrations in lambs before and after birth 51
J. M. Bassett, Anne H. Burks & R. Pinches

Number 2, April 1983

Neuropeptides and brain development. Current perils and future potential 67
D. F. Swaab & G. J. Boer

Studies on experimental growth retardation in sheep. Plasma catecholamines in fetuses with small placenta 77
C. T. Jones & J. S. Robinson

Studies on experimental growth retardation in sheep. The effects of maternal hypoxaemia 89
J. S. Robinson, C. T. Jones & E. Jane Kingston

Stereotaxic method and atlas for the ovine fetal forebrain 101
P. D. Gluckman & Yvonne Parsons

Fetal and maternal endocrine responses to exercise in the pregnant ewe 129
A. W. Bell, J. M. Bassett, K. D. Chandler & R. C. Boston

Number 3, June 1983

Comparative *in vitro* responses of fetal, pregnant and non-pregnant rabbits' adrenal glands of steroidogenic agents 143
M. P. Malee & S. F. Marotta

Mechanisms involved in the transfer of calcium across the isolated guinea pig placenta 155
B. K. van Kreel & J. P. van Dijk

Development of temperature regulation in the fetal sheep 167
Tania R. Gunn and P. D. Gluckman

Blood circulation and oxygen transport in the fetal guinea pig 181
H. Girard, S. Klappstein, I. Bartag & W. Moll

Iron metabolism and placental iron transfer in the guinea pig 195
J. P. van Dijk, B. K. van Kreel & J. W. A. Heeren

Number 4, August 1983

The effects of adrenergic blockade on fetal response to hypoxia 211
C. T. Jones, & J. W. K. Ritchie

The effects of hypoxia on glucose turnover in the fetal sheep 223
C. T. Jones, J. W. K. Ritchie & D. Walker

The developmental effects of prostaglandin D_2 (PGD_2) on the pulmonary and systemic circulations in the newborn lamb 237
S. J. Soifer, F. C. Morin, III, D. C. Kaslow, & M. A. Heymann

The regulation of ovine placental lactogen: the role of the fetal hypothalamic-pituitary axis 251
M. J. Taylor, I. C. McMillen, G. Jenkin, J. S. Robinson & G. D. Thorburn

Intestinal maturation: alpha-aminoisobutyric acid loss during *in vivo* perfusion by hypertonic solutions 259
J. Roberto Moran & Fayez K. Ghishan

Fetal and maternal influences on arterial oxygen levels in the sheep fetus 267
R. Harding, J. N. Sigger & P. J. D. Wickham

Number 5, October 1983

The effects of hypophysectomy, thyroidectomy, and postoperative infusion of cortisol or adrenocorticotrophin on the structure of the ovine fetal lung 281
R. K. Crone, P. Davies, G. C. Liggins & L. Reid
